DETAILED ACTION

Election/Restrictions

1. Claims 1-6, 8, 11 are allowable. The restriction requirement of Species D, as set forth in the Office action mailed on 1/25/05, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim and is supported in the specification.** Claims 4-6, 8, and 11, are directed to a Species no longer withdrawn from consideration because the claims require all the limitations of an allowable claim and are supported in the specification. However, claims 9 and 10 are directed to a different embodiment that has been withdrawn from consideration because these embodiments weren't supported in the specification, and therefore cannot have all the limitations of the allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

Art Unit: 3763

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel Claims 9 and 10.

Claim 11:

A pre-filled syringe, comprising:

a syringe comprising a syringe barrel of one any of claims 1 to 6 ~~or~~ and 8 ~~to 10~~; and a chemical solution filled in the syringe.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claim could either not be found or was not suggested in the prior art of record. The subject matter not found was a flange and reinforcing rib that are located on a syringe barrel, wherein the structure of the reinforcing rib increases stability and prevents breakage of the flange.

The independent claim also includes other patentable subject matter in combination with the other elements or steps of the claim not mention in the above paragraph.

With regards to claim 11, the examiner interprets this claim to be a linking claim, which has at least all the limitations of claim 1, thus having the same patentable subject matter and reasons for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew F. DeSanto whose telephone number is 571-272-4957. The examiner can normally be reached on Monday-Friday 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nick LUCCHESI can be reached on (571) 272-4977. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
